OPERATIONS & CHANGE COORDINATION LEADER

People, Process & Implementation Alignment | Cross-Functional Communication | Training & Enablement

PROFESSIONAL SUMMARY

Operations and change coordination leader with 20+ years of experience supporting large-scale, technology-enabled service environments. Known for guiding teams through policy, process, and organizational transitions with clarity, stability, and strong cross-functional alignment. Extensive background in supervisor-layer coordination, training enablement, and operational rollout support, helping translate strategy into consistent day-to-day execution. Trusted in high-pressure environments to maintain accountability, communication flow, and continuity during periods of change.

Experienced working across leadership, supervisor, and front-line layers to support implementation consistency, reinforce policy adoption, and maintain operational stability during organizational and technology change.

CORE CAPABILITIES

- Change Coordination & Implementation Support
- Training & Supervisor Enablement
- Cross-Functional Alignment
- Operational Policy Development & Rollout
- Stakeholder Communication Support
- Team Leadership & Performance Development
- Process Consistency & Documentation
- Organizational Communication Flow
- Decision Support in High-Pressure Environments
- Systems Thinking in Technology-Enabled Operations
- Implementation Alignment Across Teams

PROFESSIONAL EXPERIENCE

CapTel, Inc. — Floor Operations Coordinator

September 2008 – October 2025

Supported daily operations within a large-scale, technology-enabled telecommunications service environment providing accessibility support nationwide.

Key contributions included:

- Coordinated operational alignment across administrative teams and multiple layers of supervisors supporting multi-shift service delivery
- Supported implementation consistency during policy, staffing, and operational process transitions
- Supported supervisor-layer alignment during rollout of operational policy and procedural updates affecting multi-shift service delivery
- Led administrative training initiatives reinforcing policy adoption and supervisor readiness
- Developed, documented, and maintained operational policies and procedures supporting organizational clarity and consistency
- Facilitated cross-department communication supporting continuity across operations, training, and leadership functions
- Interviewed, promoted, and onboarded administrative staff and supervisors
- Provided escalation guidance and decision support during time-sensitive operational issues requiring cross-team coordination and policy interpretation
- Strengthened communication pathways between leadership and front-line supervision layers

CapTel, Inc. — CA Supervisor

May 2005 – September 2008

Led teams within a high-volume service environment supporting real-time communication accessibility services.

Key contributions included:

- Supervised and coached front-line employees in a fast-paced operational setting
- Conducted performance reviews and supported employee development planning
- Reinforced policy adherence and quality standards across teams
- Supported operational continuity during staffing and procedural adjustments

CapTel, Inc. — Captioning Assistant

October 2004 – May 2005

Delivered real-time captioning services for individuals with hearing loss in a live telecommunications environment.

- Provided accurate communication support in time-sensitive service interactions
- Applied bilingual English/Spanish capability in live service delivery contexts

DIGITAL & SYSTEMS EXPERIENCE

Mandalafy® — Creator

Designed and built an interactive digital tool using WordPress with structured user workflows guiding creation, customization, and output.

- Designed step-by-step user interaction pathways translating a creative process into a structured digital workflow
- Used AI-assisted tools to support prototyping, troubleshooting, and implementation
- Managed end-to-end structure including concept development, workflow design, and deployment
